

Park meeting September 13, 2011

Had a meeting with Nathan Holly, Dean Alexander, Tina Neuman, John Traxler, and Dennis Daye to discuss the arrangements for the south diamond dugout project.

Below is a list of the costs as well as project ideas:

Remove existing bleachers and install two 8`x20` cement pads for the floors of the dugouts and two 23`x11` cement pads for new aluminum bleachers to sit on.

506 sq. ft. of concrete for bleachers

320 sq. ft. of concrete for dugouts

Total yards 10.5 @ \$60 /yard \$650

Cost of dugout fencing not including roof \$2295

Bleacher quotes 5 row 21`x9.5` \$3409

Additional costs to include roof which will consist of the 2x4 treated supports and steel, potential landscaping; gravel, and /or top soil

Paving of driveway approach area

## Summary:

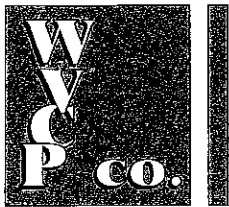

The group was able to meet at the ball diamond area and was decided that this will be a community based effort with help from Gasser construction to complete this project.

The project will begin with the removal of the existing bleachers on the south diamond and pour two new cement pads for new aluminum bleachers an also pour new pads for the dugout area. After the pads are in place, we will be installing the two new fence style dugouts. We would like to complete this project during the fall months so that when springtime comes we will complete the roof on the dugouts which would then allow Gasser construction to pave up to the existing concession building.

This project will conclude with some landscaping done with the help of the community and others.

The funding of this project will be made possible thru the generous donations from AOL Charities as well as other civic groups and donors.

Dennis Daye
